### ***FYI***

- The European Court of Justice recently ruled that the cheese made for nearly 800 years near the Italian city of Parma can legally be called Parmesan, a translated version of "Parmigiano Reggiano". German producers of imitation cheese will now have to change the name of their products.
- Alexander Graham Bell may be known as the father of the telephone because of the patent filed on February 14, 1876. Little known is the Italian immigrant inventor Antonio Meucci who devised his own version years earlier but could not afford the \$10 patent application process to defend his innovation.
